Description
The Department of Economics at Università Ca' Foscari Venezia invites applications for a fellowship in:

Title:
Expert on climate and energy policies
- Academic Discipline or disciplines specifically identified by the call 13/A4
- scientific coordinator and tutor: Prof. Enrica De Cian
- duration: 24 months

abstract:
The recruited postdoc will work on the project ENERGYA – Energy use for adaptation - funded by the ERC Starting Grant of the European Research Council. Goal of the project is to advance the knowledge of how we could use energy to adapt to climate change through an interdisciplinary approach integrating data and methods from economics with geography, climate science, and integrated assessment modelling. Main responsibilities include to gather and maintain data on climate policies and energy policies that are relevant for the analysis of adaptation through the use of energy by:
- Combining different data sources from the key countries that will be examined during the project;
- Interacting with the country experts involved in the project;
- Monitoring and analyzing the documents related to the international negotiations on climate change;
The researcher will interact with the country experts and the team to facilitate the integration of policy data in the empirical work. The researcher will support the PI in the processing of data gathered, and will collaborate in making the participation of the project into the Open Research Data Pilot successful.

The resolution of the Departmental Council of 2018-01-23 contains declaration of financial backing for the entire duration of the fellowship, which will be funded partly with funds available to the Department, partly with funds owned by Prof. Francesco Vallerani.

The research may be carried out in English.
The fellowship is intended to provide the successful candidate with the opportunity to pursue
his/her own research while benefiting from the range of expertise at Università Ca’ Foscari Venezia.
