Call for n. 1 Short Research Fellowship- Ca’ Foscari University of Venice- Department of Environmental Sciences, Informatics and Statistics
(L. 240 del December 30th 2010, art. 18, DL 19/2012;
Regulations about Short Research fellowships DR 399/2018 del 04/05/2018

The present document in English is to be considered as a mere translation of the provisions of the call which is available in Italian at the following http://www.unive.it/data/17576/. The text in Italian is the official text of the notice of competition for all legal intents and purposes and, in the event of non-conformity with the present document, it shall prevail.

The Department of Environmental Sciences, Informatics and Statistics Ca’ Foscari University of Venice, having regard to the resolution of the Decision for Department n. 543/2018, 27/06/2018, establishing the research programmes for awarding of the short fellowships in ‘Integrated sustainability and social innovation’, lasting 3 months (during the Project period), with the possibility of renewal within the limits of art. 4 of the Regulations for awarding of university short research fellowships. The expected starting date is indicatively 24 July 2018.

The research fellowship is awarded for the purpose of collaboration with the following research programme of the Department of Environmental Sciences, Informatics and Statistics Ca’ Foscari University of Venice - abstract:
The research activity will focus on the analysis of the relationship between relational goods and management of the commons, i.e. those goods shared by the entire community, which often depend on key services (such as water and air purification, production of goods, as well as aesthetics), but which are often directly or indirectly impacted by several anthropic activities.
In fact, relational goods (non-tangible goods that originate from interactions between individuals, of a communicative and affective nature that have characteristics of local non-exclusivity, anti-rivalry, non-decreasing marginal utility, with respect to which the investment, production and consumption functions coincide temporally) are considered a fundamental tool for the shared management of resources and of the commons. However, presently there are no standardized analysis methods and indicators for their evaluation. This research is intended to start to fill this knowledge gap.
Tutor Prof. Fabio Pranovi, SSD BIO07.

The research fellowship amounts to Euro 12,000 for 3 months, gross to the recipient.

Deadline: 17 July 2018, 12:00 am.

Rules of eligibility - Beneficiaries.

a) People with master’s degree in social Sciences (or equivalent) and an adequate scientific and professional cv are eligible.
   It will be evaluated as preferential titles to have documented experiences of research and teaching on the themes of relational goods.

Applicants must hold all the requisites within the call deadline. The qualifications will be evaluated by a Commission that examines the eligibility and qualifications of the candidates and makes a merit rank of them.
