Description
The Department of Environmental Sciences, Informatics and Statistics at Università Ca' Foscari Venezia
invites applications for a fellowship in:

Title: Families_Share: Implementing an ICT platform for social innovation.
SSD - SPS/04.
Tutor: Proff. Agostino Cortesi, Francesca Campomori.

Abstract: This grant is related to the project Families_Share, funded by European Union (Horizon 2020).
The overall objective of the project is to develop a social networking and awareness platform dedicated to
childcare and work life balance. The platform builds on neighbourhood networks enabling citizens to come
together and share tasks, time and skills relevant to childcare and after school education/leisure which have
become unaffordable in times of stagnation and austerity. To achieve this objective the project borrows and
integrates the concepts of time banking with some already developed digital social innovation experiments in
the child care field represented in the consortium and seeks to further exploit the potential of ICT networks to
increase participatory innovation in the sense of self-organizing neighbourhoods.
Funded with a European project - Socializing and sharing time for work/ life balance through digital and
social innovation, H2020-ICT-2016-2017, Topic: ICT-11-2017, Type of action: IA, Grant Agreement Number
780783, durata: 01/01/2018 - 31/10/2020, CUP H73C17000220006.
Of which he is coordinator and scientific responsible for the Ca’ Foscari University of Venice Prof. Agostino
