Description
The Department of Economics at Università Ca' Foscari Venezia invites applications for a fellowship in:

- **Title:**

  Procedures and models concerning the processing and the protection of personal data in the design, execution and diffusion of scientific research. Legal and empirical analysis of fundamental rights theory, rights in rem and criterias for balancing conflicting interests

- **Academic Discipline or disciplines specifically identified by the call** IUS/01
- **scientific coordinator and tutor:** Prof. Roberto Senigaglia
- **duration:** 12 months

**abstract:**
The research aims to investigate the European legal framework of the personal data protection (EU Reg. 2016/679) according to different manifestations of scientific research. It is a matter of identifying different situations and problems involved, considering also the data type, and defining solutions and procedures (especially IT) suitable for guaranteeing the validity of the processing. The reconstructive process, especially in controversial cases, requires an investigation that considers, particularly, the theory of goods, as well as the fundamental rights theory and the procedures for balancing public and individual interests. The purpose is to identify both the rules and the exceptions that are applicable, provide possible solutions for controversial issues, prepare the necessary supporting documentation for research projects regarding to subject of data management, assemble materials for the training of researchers and organise learning events on the subject.

The resolution of the Council of Department of Economics of 2019-02-13 contains declaration of financial backing for the entire duration of the fellowship, which will be funded by Area Pianificazione e Programmazione Strategica (APPS) – Ufficio Progetti Speciali – Università Ca’ Foscari Venezia, responsible Prof. Roberto Senigaglia
The research may be carried out in English.
The fellowship is intended to provide the successful candidate with the opportunity to pursue his/her own research while benefiting from the range of expertise at Università Ca' Foscari Venezia.
