Call for n. 1 Short Research Fellowship - Ca' Foscari University of Venice– Department of Molecular Sciences and Nanosystems

(L. 240 del December 30th 2010, art. 18, DL 19/2012; Regulations about Short Research fellowships DR 399/2018 del 04/05/2018

The present document in English is to be considered as a mere translation of the provisions of the call which is available in Italian at the following link. The text in Italian is the official text of the notice of competition for all legal intents and purposes and, in the event of non-conformity with the present document, it shall prevail.

The Department of Molecular Sciences and Nanosystems of Ca’ Foscari University of Venice, having regard to the Decree of the Head of the Department Rep. n. 136/2019 prot. n. 13626 - III/13 of March 7th 2019 establishing the research programmes for awarding of the short fellowships in "Synthesis of organometallic palladium complexes to use as antiproliferative agents on tumor cells", SSD: CHIM/03, Tutor prof. Fabiano Visentin, lasting 6 months, with the possibility of renewal within the limits of art. 4 of the Regulations for awarding of university short research fellowships.

The expected starting date is May 2019.

The research fellowship is awarded for the purpose of collaboration with the following research programme of the Department of Molecular Sciences and nanosystems:

The candidate will be able to prepare new organometallic palladium complexes to test as antiproliferative agent against different human cancer cell lines. The synthesis includes the preparation of the spectator ligands and their coordination on the suitable precursor containing the organometallic function. Final products will be exhaustively characterized by spectroscopic techniques. Finally, their citotoxicity against tumor cells will be evaluated determining the respective IC50 values.

The research fellowship amounts to Euro 8,000.00.

Deadline: March 29th 2019

Rules of eligibility - Beneficiaries.

a) People with masters degree (or equivalent) in Chemistry or related and an adequate scientific and professional cv are eligible.

In addition, the following knowledge, skills and experience will be evaluated as preferential qualifications:

- holding a PhD or having completed the attendance of a PhD programme, although not having yet obtained the PhD title;
- experiences and / or publications on the topics covered by the announcement.

Evaluation Procedure and Commission.

A Commission summoned by the Director of the Department, who indicates the President of the Commission and the member taking the minutes, will evaluate the applications.

Evaluation procedure. The Commission defines the general evaluation criteria. The interview and any other test must ascertain the suitability of the applicant to the research activity. The Commission compiles a ranking and specifies the winning applicant, having regard to the score appointed to experience and qualifications, interview and any other test, as specified by the call.

Awarding of the short research fellowship Having received the selection documents, and at the outcome of the checks, the Director approves, by his own decree, the classification and the selection procedure reports and makes them public according to the procedures specified in the Regulation awarding the short research fellowship art. 6 and in the website http://www.unive.it/data/28900/. Exclusion is justified in detail in the selection reports which can be accessed in accordance with law 241/90.
The Director of the Department/Centre at which the research programme will be conducted awards the research fellowship to the winner of the selection procedure, subject to ascertainment of the prescribed requirements. The latter shall accept the award within 7 (seven) days from receipt of the communication by signing the relative contract at the competent office of the Department of Molecular Sciences and Nanosystems, which will establish the terms of and procedures for the collaboration and allocation of the grant.

Grant

The fellowship is intended to provide the successful candidate with the opportunity to pursue his/her own research while benefiting from the range of expertise at Università Ca' Foscari Venezia. The tutor coordinates the activities of the Research Fellow and any other research activity within the same program and provides the Fellow with all the information for carrying out the research.
The Department provides the Research Fellow with the needed back-up support such as access to facilities, equipment and administrative services.
The Research Fellowship is not, in any case, considered as an employment contract and the Fellow is not part of the University staff.
The rights for any patentable invention coming from Research Activities belong to the University or entities with which
the University has signed (or will sign) specific agreements.

The person responsible for administrative proceedings

In accordance with Art. 5 of Law no. 241 dated 7 August 1990, as amended, the person responsible for the selection process (RPA) is Sonia Barizza who can be reached at the Department of Molecular Sciences and Nanosystems, at the e-mail address ricerca.dsmn@unive.it.

Final provisions

For anything not specified in this call, see the University of Venice's current regulations regarding the awarding for research fellowships and the current legislation.
