Description
The Department of Economics at Università Ca' Foscari Venezia invites applications for a fellowship in:

- **Title:**
  
  Public policies for social mobility

- **Academic Discipline or disciplines specifically identified by the call** SECS P/03, SECS-P/02/SECS-P/01
- **scientific coordinator and tutor:** Prof. Michele Bernasconi
- **duration:** 12 months

**abstract:**
The research will focus on the study of public policies for social mobility. Social mobility is a complex concept, related to the mechanism that governs the evolution of the socio-economic status of individuals in a society between generations or over time. In this research the relationships between mobility and economic equality will be studied with a main focus on the difference between the concepts of equality of opportunities and equality of outcomes. The research may be directed towards either theoretical or empirical objectives, or both. In the first case, for example, the research may focus on the analysis of models for representation of social preferences and / or analyses of economic policies able to overcome the trade-off assumed by some literature between policies aimed at promoting equality of opportunity or equality of results. Alternatively or in complementarity, the research can be directed to conduct empirical analyses aimed at studying society's preferences for equality of opportunities and equality of results, with studies focussed on policies implemented in the field or even through laboratory experiments.
