Call for the appointment of n.1 Short Research Fellowship

Ca’ Foscari University of Venice – Department of Management

Description
The Department of Management of the Ca’ Foscari University of Venice, on the basis of resolution taken during the Council of Department on 13 October 2021 on the awarding of research grants for research fellows, hereby calls for applications for the research entitled “Creative and digital competences in the cultural and creative industries”, lasting 10 months.

The Research Fellow must perform the following research:

ACTIVITIES
The research project takes the form of an empirical study investigating the knowledge, skills and competences of workers in the cultural and creative industries in Italy. The project contributes to explore the professional contribution of both freelancers and entrepreneurs, as well as employees in large companies by addressing some key questions related to a rapidly evolving labor market scenario of skills and abilities.

OBJECTIVES
The research aims to define the typical profiles of freelancers in the various sectors of culture and creativity compared to that required in big tech. What is their career model and their degree of mobility within cities, regions and countries? What mix of creative, digital and managerial skills do they need to grow rapidly in their career? What are their main gaps in knowledge and competence? The medium-term perspective of the project is to build a real Observatory of creative and digital skills based in the Department of Management of Ca’ Foscari (in particular in the collaboration between the BLISS and MACLAB laboratories).

EXPECTED RESULTS
The research consists in collecting the results resulting from the empirical analysis previously conducted, collecting and organizing the literature and coordinating any further work required on the data. These materials will be collected in a research report to be produced by the end of the fellowship period.

The scientific coordinator of the Short research fellowship is prof. Massimiliano Nuccio.

The Research Fellow’s activity will be carried out remotely in the following minimum ways:

Upon completing their research, fellows must provide the department with the following research output:
- two-monthly reports on the activities;
- a final report on the activities undertaken, highlighting the results achieved;
- Research fellows are also required to fill in and submit to competent offices a “weekly diary”, recording their research activities.

For anything not specified in this Call, please refer to the Regulations, applicable legislation and the Regional Directive on the ESF funding in question and subsequent additions.

Duration of the contract: 10 months, indicatively starting in January 2022.

Amount: The total amount of the research fellowship is € 14,272,00 (fourteen thousand, two hundred and seventy-two), exempt from IRPEF (personal income tax) and INPS (social security contributions). The amount awarded is understood to include any costs relating to the undertaking of the research envisaged by the project. The amount, granted in one single instalment at the end of the Short Research Fellowship, shall only be approved and
