The present document in English is to be considered as a mere translation of the provisions of the call which is available in Italian at the following [link](#). The text in Italian is the official text of the notice of competition for all legal intents and purposes and, in the event of non-conformity with the present document, it shall prevail.

The Temporary Centre “Project Ecosistema dell’Innovazione” of Ca' Foscari University of Venice, having regard to the Decision of the Deputy Coordinator of the Temporary Centre “Project Ecosistema dell’Innovazione” Repertorio n.219/2025 Prot. n. 204085/2025 del 30/07/2025 establishing the research programmes for awarding of the short-term research fellowships in **“Assessment of scientific impact and knowledge transfer in cultural and creative tourism”** lasting 3 months. The expected starting date is indicatively from **September 2025**.

The short-term research fellowship is awarded for the purpose of collaboration with the following research programme of the Temporary Centre “Ecosistema dell’Innovazione” - **abstract**:

This research fellowship aims to critically and systematically analyse the scientific and social impact of activities conducted under Spoke 6 "Tourism, Culture, and Heritage" of the iNEST project. The primary objective is to evaluate how research outputs are assimilated and translated into tangible value for the territory and relevant sectors, with particular attention to their dissemination through scientific publications and their impact on stakeholders in the cultural and tourism systems. The research will unfold in two complementary phases. The first phase will focus on mapping and analysing the scientific production generated by Spoke 6, examining not only quantitative outputs but also their quality, originality, and ability to stimulate academic debate. This approach will provide a comprehensive overview of the project's scientific contribution, highlighting areas of most significant innovation and those that may benefit from further development. The second phase will assess the practical utility of research findings for sector stakeholders, evaluating the extent to which scientific results have been absorbed and applied in real-world contexts. Through the review of documents, reports, and case studies, the study will identify how academic knowledge is transferred to productive and institutional frameworks, generating value for the territory. The analysis will consider both direct impacts—such as the adoption of new methodologies or technologies—and indirect ones, including the formation of collaborative networks and the strengthening of dialogue between research and practice. This structured approach will provide insights into the pathways through which research achieves measurable outcomes, ensuring a robust evaluation of iNEST's contributions to both academia and the cultural tourism ecosystem.

Tutor: Prof. Fabrizio Panozzo

The amount of the short-term research fellowship is equal to Euro 4.800,00 gross percipient and will be subject to taxation according to current regulations. It will be paid at the conclusion of the contract in a single instalment.

Deadline: Tuesday, August 19th, 2025, 12:00 pm

In case the deadline is on Saturdays, Sundays or on holidays it is extended to the first working day thereafter.

Rules of eligibility – Beneficiaries

Citizens belonging to European Union member states and non-community citizens in possession of the following qualifications may take part in the selection:

- a) People with *Master in Master's degree in Environmental and cultural economics (LM76) or equivalent Master degree awarded abroad* and an adequate scientific and professional CV are eligible.

Applicants must hold all the requisites within the call deadline. The qualifications will be evaluated by a Commission that examines the eligibility and qualifications of the candidates and makes a merit rank of them.

Skills required

Advanced skills in cultural and creative management, with proven experience in managing high-impact projects in the tourism and cultural sector. A solid ability to coordinate participatory processes with local and institutional stakeholders is required, combined with familiarity with impact assessment methodologies in the creative industries. The ability to translate research results into operational tools for the sector will be essential, demonstrating sensitivity in mediating between academic requirements and local needs.

Any other evaluable qualifications

Specialisation diplomas or certificates of participation in training activities consistent with the research topics (e.g. summer schools, visiting periods abroad, research awards, etc.).

Incompatibility

The short-term research fellowship may not overlap with:

- a) other scholarships granted in any capacity, apart from those granted by national or foreign research institutes in order to integrate with periods abroad the specific activity foreseen by the work plan of the appointed fellow;
- b) attendance of PhD courses with scholarship and medical specialization, in Italy and abroad;
- c) research grants "assegni di ricerca"

Short-term Research Fellowship holders may carry out self-employed work or occasional or permanent collaborations, as long as this is coherent with the ongoing research, upon approval and on the condition that:

- does not involve a conflict of interest with the specific research activity carried out;
- does not prejudice the university, in relation to the activities carried out.

Subordinate employment contracts holders, in addition to obtaining permission by the university, must provide the authorization of their employer.

In the specific case that the subordinate employment contract started prior to the awarding of the fellowship, compatibility with the existing employment will have to be assessed; if the assessment yields a negative result, the Short-term Research Fellowship will not be awarded; in the case of a positive result, the successful candidate will have to provide the authorization of his/her employer within 15 days.

In the event that the subordinate employment contract will start once the fellowship is ongoing, the successful applicant is required to notify this change at least 30 days before the start of the employment contract for an assessment of compatibility; if the assessment is negative, the fellowship will cease by the start of the employment contract; in the event of a positive outcome, the successful applicant must provide the authorization of his/her employer within 15 days.

The awarding of the short-term research fellowship does not imply the establishment of any employment contract, nor does it give rise to any rights of access to positions of employment at the university
